

Even though Villa Capri Holiday Apartments are family friendly it doesn't mean that you will want to spend your whole holiday using our facilities. We have put together some information to help you plan your stay with us.

In this section of local attractions we have included a range of things to do and places to visit for a typical family outing. You may also find other activities and attractions under some of the other headings.

Please use the links to the right of this page to explore the attractions we have listed. If the pages do not display this could be because you have a pop-up blocker set. If you know of any other attractions that you feel we should include on our site then please feel free to tell us about them.
