

For many people the attraction of a break in Torquay is the favourable weather conditions combined with stunning scenery and views. The word 'tor' means hill or rocky peak, and 'quay' is a landing place for loading and unloading ships. Hence Torquay being a natural harbour surrounded by hills and peaks.

It is no surprise that a popular section of The Coastal Path is the piece that runs around the edge of Torbay. As you can see from the pictures below, the scenery really is spectacular. Just click on a picture to enlarge it.
